# GeoSeaPortal – Map Client

BUNDESAMT FÜR SEESCHIFFFAHRT UND HYDROGRAPHIE

#### **CONTIS Facilities**

- Platforms
- Cables (Data Cable and High Voltage Cable)
- Pipelines
- Offshore-Windfarms

#### **WMS**

http://GDISRV.bsh.de/arcgis/services/CONTIS/Facilities/MapServer/WMSServer

#### **CONTIS Administration**

- Boundaries
- Maritime Features (shipping)
- Sediment Extraction
- Military Practice areas
- Dumping grounds
- Preferred areas for offshore wind energy

#### **WMS**

# **Example: Offshore Windfarms**

- Name (String, length 50)
- Status (Short Integer)
- Confidence (Short Integer)
- Remark (String, length 250)
- Operating Company (String, length 100)
- In Service Date (Date)
- Projected Operation Period (Short Integer)
- Number of Plants (Long Integer)
- Power Rating (MW) (Long Integer)
- Out of Service Date (Date)
- Application (Short Integer)
- Approval (Date)
- Construction Start (Date)

### **Example: High Voltage Cable**

- Name (String, length 50)
- Status (Short Integer)
- Confidence (Short Integer)
- Remark (String, length 250)
- Operating Company (String, length 100)
- In Service Date (Date)
- Projected Operation Period (Short Integer)
- Power Rating (MW) (Long Integer)
- Max Amperage (A) (Long Integer)
- Max Voltage (kV) (Long Integer)
- Out of Service Date (Date)
