PartiSEApate Project

RU - LT Transnational Stakeholder Meeting on MSP concept solutions in the Lithuanian Sea and its potential impacts on sea use in Russia

– Kaliningrad Oblast Region,

November 7 - 8, 2013

Sports Complex of the Central Sports Club of the Army, Severnyi mol 7
Baltiysk, Kaliningrad Oblast Region, Russia

The Coastal Research and Planning Institute (CORPI, Lithuania) in cooperation with the Atlantic Branch of P.P. Shirshov Institute of Oceanology of the Russian Academy of Sciences of Kaliningrad (ABIORAS) invite you to PartiSEApate project event "RU – LT Transnational Stakeholder meeting on the MSP concept solutions in the Lithuanian Sea and its potential impacts on sea use in Russia – Kaliningrad Oblast Region".

On day 1 (07/11/2013) the PartiSEApate event will be held as parallel session to the Seminar on "Spatial planning in the Vistula Lagoon" under the VILA Project "Features and benefits of sharing the Vistula Lagoon" of the Lithuania-Poland-Russia ENPI Cross-border Cooperation Programme 2007-2013 (www.lt-pl-ru.eu/en,1). This session will bring together stakeholders from the three countries introducing current MSP processes and planning principles in this specific part of South Eastern Baltic Sea.

On day 2 (08/11/2013) the PartiSEApate event will continue as focused group discussion with Lithuanian and Russian MSP experts addressing present/future sea uses, potential synergies and conflicts in the RU – LT sea space.

1. Objectives of the meeting

- To present the current state of the Marine Spatial Planning (MSP) process in Lithuania with key principles, concept solutions applied and potential future uses of the Lithuanian sea space.
- To identify existing sea uses and future development perspectives of the Russian and Lithuanian sea space that require cross-border consultation.
- To discuss with stakeholders potential conflicts and synergies for sea uses in the Russian – Lithuanian sea space.

2. Agenda
